QUESTIONING THE LOGIC
OF POP SPIRITUALITY

Part 2: Eckhart & the Logic of God

Is humanity ready for a transformation of consciousness? The possibility of such a transformation has been the central message of the great wisdom teachings of humankind. The messengers – Buddha, Jesus, and others.

~ Eckhart Tolle, *A New Earth*

As I was writing *A New Earth*, people would sometimes ask me, 'What is the new book about?' And invariably, my answer would be, 'I only ever write or speak about one thing.' What is that one thing? Spiritual awakening.

~ Eckhart Tolle, *The One Thing*

Every belief is an obstacle.

~ Eckhart Tolle, *A New Earth*

(And he really believes that.)

You are one with all that *is*.

~ Eckhart Tolle, *The Power of Now*

You are the Awareness, you are Consciousness, appearing as a person for a little while. And when your current form is gone, you are transformed to join with the Source or to go through further experiences of awakening.

~ Eckhart Tolle, Online Video

The very consciousness that you are is the one Universal, the one Life.

~ Eckhart Tolle, A New Earth Online Class

You are always meeting yourself in some other form. Isn't that wonderful. I appear in so many forms – it's so beautiful. I like to sit in cafes sometimes and just watch all the people come in and sit there, and just watch, looking at myself appearing in so many forms.

~ Eckhart Tolle, *Finding Your Life's Purpose*

God is Being itself, not a being. There can be no subject-object relationship here, no duality, no you *and* God.

~ Eckhart Tolle, *The Power of Now*

There is no separation between you and God. Between you and the source of life.

~ Eckhart Tolle, *A New Earth*

It has been said that 'God is love' but that is not absolutely correct. God is the One Life in and beyond the countless forms of life.

~ Eckhart Tolle, *A New Earth*

God is love.

~ **The Apostle John**
